PROFESSIONAL SUMMARY

Software Engineer with 2+ years of hands-on experience building scalable, enterprise-level web applications. Proficient in ASP.NET Core, C#, SQL Server, and JavaScript with a focus on clean code, RESTful API design, and performance optimization. Proven ability to deliver full-stack solutions independently — from database design to production-ready UI. Currently pursuing B.S. in Computer Science at GC University (Expected 2028).

WORK EXPERIENCE

Software Engineer — AppsXone IT Solutions

Mar 2023 – Present

- Developed full-stack web applications using ASP.NET MVC/Core, C#, Bootstrap, jQuery, and AJAX
- Designed and optimized SQL Server databases with Entity Framework Core for enterprise-grade performance
- Implemented RESTful APIs and integrated third-party services including USDA FDC nutritional data API
- Built dynamic UI components: DataTables, Select2 dropdowns, Tagify tag inputs, and UOM auto-calculation logic
- Debugged, tested, and deployed application modules ensuring high reliability and maintainable code quality

PROJECTS

SuperMart POS System — HTML5, CSS3, JavaScript, Chart.js

[supermart-pos.netlify.app](#)

Retail point-of-sale system with real-time billing, inventory management, customer database, multi-payment support, and a revenue analytics dashboard.

Volt Tech — Electronics E-Commerce — HTML5, CSS3, JavaScript

[volt-tech-website.vercel.app](#)

Modern e-commerce front-end for an electronics brand with product catalogues, shopping cart, AI chat assistant, and fully responsive mobile-first design.

Saffron House — Restaurant Website — HTML5, CSS3, JavaScript

[saffron-house-website.vercel.app](#)

Restaurant website with online ordering, table reservations, flash deal countdown timers, chef profiles, and a loyalty programme UI.
